

Equipment Men Strike, May Idle Bell System

New York, Nov. 9.—(AP)—Key equipment workers struck the vast Bell telephone system today, threatening a coast-to-coast tie-up that could cripple the nation's communication system.

The walkout began officially at dawn on the east coast and spread gradually across the country as the 6 a. m. local time strike deadline came and went.

The strikers are members of the CIO Communications Workers of America. They threw up picket lines around telephone exchanges and company warehouses—a maneuver designed to keep nearly 300,000 fellow members of their union, including telephone operators, away from work. The union has instructed its entire membership to respect the picket lines.

Within minutes after the start of the walkout pickets deployed around phone company buildings in New York, Washington, Chicago, Philadelphia, Detroit, Des Moines, Kansas City and Oklahoma City.

In New York City, some long distance operators reported for work at 7 a. m. EST, but refused to cross the equipment workers' picket lines. In Akron, O., pickets blocked two entrances to the telephone building but some employees were escorted through the lines by police. The window of a company car was broken but no one was hurt.

In Kansas City, long distance calls were being accepted by the company on an "emergency basis" only.

Federal mediators had worked here through the night and early morning seeking to beat the pre-dawn deadline with a peace pact.

The marathon mediation session began at 1 p. m. ST yesterday. Workers in Kansas City, Mo., jumped the gun and established picket lines at the main telephone exchange there an hour and a half before the deadline.

Thirty-three thousand phone equipment workers in 44 states were called out in a contract dispute. Their CIO union said their picket lines would keep 300,000 other Bell system workers, including operators, off the job from coast to coast.

The union—the CIO Communications Workers of America—ordered picket lines thrown around telephone exchanges and other Bell system buildings at the effective strike times.

Diamond Mine Corporation Is Formed

Not coming empty handed are filed Wednesday in the Secretary of State's office in the State Capitol creating a new corporation, Diamonds Unlimited, Inc. The original incorporators are Robert Dale Plant and Henry Kelsie Holland of Murfreesboro and Talbot Field, Jr., of Hope. Mr. Field, who is also attorney for the new company, stated:

"The formation of the corporation Diamonds Unlimited, Inc., is one of the first in a series of projected steps being taken so that people within and without the state may visit and see the only place in the northern Hemisphere, of this earth, where diamonds occur in their matrix.

"Preparations are to be rapidly carried forward in order that not only the people of Arkansas but people everywhere may soon view the ancient crater site where the best quality of high grade diamonds known to man have been found.

Coldest Weather of Season Hits West, Central U. S.

By The Associated Press

The coldest weather of the season—with blizzard conditions in some areas—chilled western and central parts of the country today.

There was a freezing line from the Rockies to northern Indiana and the cold Canadian air pushed south into central Texas and Arkansas. Readings were near zero in parts of the cold belt in the Rocky mountain region.

Storm warnings were posted for the Great Lakes as winds up to 40 miles an hour were forecast. A seven-inch blanket of snow covered Denver and Lander, Wyo. There was a carpet of white measuring five inches at Cheyenne, Wyo., and Devils Lake, N. D. The fall at International Falls, Minn., measured more than six inches.

Snow, whipped by winds up to 50 miles an hour, fell over the Red River valley to a depth of from two to four inches last night. High-way traffic was slowed and airline flights cancelled at the peak of the storm.

Colder weather was forecast for tonight for most of the central states and temperature drops were expected for eastern states as the cold air pushed eastward today.

Mild weather continued in most of the Gulf States and the far south-west.

Export Quota for Cotton Increased

Washington, Nov. 9.—(AP)—The government today increased its export quota for American cotton by 1,350,000 bales—or about 62 per cent—for the eight-month period ending next March 31. This brought the total quota to 3,496,000 bales for the period.

The original restrictions on shipments abroad, which limited sales to 2,146,000 bales were set up last month to conserve short supplies. An unusually small crop this year was responsible for the action.

Today's increase was made possible, Secretary of Agriculture Brannan said, because 1) There is no chance now of this year's crop failure below previous estimates; 2) surveys indicate there are good prospects of getting a recommended 80 per cent increase in production next year.

Exports for the previous full marketing year amounted to about 5,700,000 bales.

Of today's quota increase, 750,000 bales will be allocated among various countries within a few days. The remaining 600,000 bales will be allocated after the first of the year.

Brannan said actual shipments for the eight-month period may be as much as 3,854,000 bales. In addition to quotas, an estimated 250,000 bales will be shipped to Canada, which is exempt from the restrictions. There also are 108,000 bales which were shipped to other countries for which no export allocations have been established, before export controls were put into effect.

It had been considered likely from the start of the quota program that the government would increase allocations enough to allow upwards of 4,000,000 bales to be moved abroad during the marketing year ending next July 31, providing, of course, there was no adverse turn in the situation.

Get Set for More Taxes McMath Warns

Little Rock, Nov. 9.—(AP)—Governor McMath has made it clear that defeat of prohibition and the school funds proposal Tuesday will not save Arkansas from additional taxes.

The prohibition act would have removed the source of about \$7,000,000 in revenue to the state annually and the school funds amendment would have earmarked about \$32,500,000 of state funds a year for schools.

Both would have had a serious impact on the state financial situation, and that was a telling argument cited by opponents in campaigning for their defeat.

As latest returns showed both proposals trailing decisively with a general election record total of 290,000 votes already counted, McMath began lining up his second term program and listed as major items for consideration by the 1951 legislature:

Continuance of the projected educational program.

Construction of the mental hospital, medical center and other essential buildings for institutional purposes.

Continuance of a road construction program with emphasis on the primary system.

The governor said defeat of the school funds amendment "does not in anywise indicate an unwillingness to support the projected educational program so essential to the progress of our state and the welfare of our young people."

"I know," he added, "that the people, through the legislature, will not permit the educational program to falter or fail."

State Education Commissioner A. B. Bonds had said earlier that defeat of amendment 41 did not solve the problem of school finance, and that \$8,000,000 more than anticipated revenue next year will be necessary to continue the present program.

McMath also saw the heavy, but unsuccessful, vote in favor of prohibition as reflecting "a dissatisfaction with the present system of liquor controls," and said he would ask the legislature to create an alcoholic beverage control board, but the most essential services, "it is my opinion that a balanced program can be executed for the state during the next two years without an undue increase in the tax burden."

However, the Arkansas Gazette said it has been speculated that he will suggest an increase of three cents a package in the cigarette tax, a one mill property tax to support a bond issue for construction.

Telephone Rate Hearing Is Postponed

Little Rock, Nov. 9.—(AP)—Hearing on Southwestern Bell Telephone company's application for a \$4,620,000 annual rate increase in Arkansas has been recessed again.

The hearing, before the Arkansas Public Service commission, was resumed briefly yesterday to complete cross-examination of company witnesses who testified in support of the rate boost.

It was continued then until Nov. 21, when direct testimony of opponents of the increase will open.

Mr. Truman Appears to Be Cheerful

Aboard Yacht My Mary Gail, Nov. 9.—(AP)—President Truman showed his disappointment and probable surprise over Tuesday's democratic election setbacks behind a cheerful appearance today and pondered his future.

Mr. Truman and his staff were not saying much about the results except to point to the fact that the Democrats retained control of the senate, 49 to 47, and of the house by what they described as a comfortable majority. It was whittled sharply from the present margin.

As an election aftermath, the question naturally arose whether the president will seek his own reelection in 1952 with the same kind of "give 'em hell" campaign he staged in 1948.

Mr. Truman has never said he will not run again. And he has never said he will. At the same time, there has been no effort on the part of the national committee to build up another Democratic for the contest.

And several of those who have been frequently mentioned as possibilities if the President does not run again were defeated Tuesday. That would seem to put additional party pressure on Mr. Truman to make the race again.

Members of the President's party weren't talking about the future though. They were still trying to figure out what went wrong Tuesday.

Quoted by reporters as Mr. Truman's explanation for the defeat, he said he was "not sure" of what went wrong Tuesday.

Quoted by reporters as Mr. Truman's explanation for the defeat of top ranking party members, presidential Secretary Charles G. Ross said tersely:

"The President has not expressed himself as to that."

Mr. Truman and his party meanwhile continued their cruise aboard the presidential yacht U. S. S. Williamsburg. This brief outing on the Potomac river and Chesapeake bay may well be the President's last vacation of the year.

U. S. Presses Action on China Intervention

Lake Success, Nov. 9.—(AP)—The United States intended today to press without delay its charges of Chinese Communist intervention in Korea despite the apparent inclination of some other members of the security council to proceed slowly with the case.

An American source said the U. S. delegation is making a final check with Washington on the wording of its resolution and might bring the document into the U. N. today.

The resolution is understood to demand the withdrawal of alien forces—Chinese Communists—fighting in support of the North Korean Reds and to call on all governments to refrain from assisting the North Koreans.

The security council's next scheduled meeting is for Friday afternoon on the Palestine case. The United States delegation could call for a meeting before that on the Korean issue, possibly Friday morning.

In any event, the American source said, the United States does not intend to let the matter lie dormant for any length of time while the council awaits the arrival of Chinese Communist representatives to answer the charges leveled against the Peiping regime by Gen. MacArthur. The United States, the informant explained, is ready to proceed whether or not the Chinese Reds have arrived at Lake Success.

Warren R. Austin, chief American delegate, told the council yesterday that the Chinese Communists had recklessly thrown 30,000 regular troops against the United Nations forces commanded by MacArthur. This action, Austin said, raised the danger "that the present conflict may not be limited to the Korean area."

Subsequently the council, by a vote of 8 to 2, approved a British resolution inviting the Chinese Communists to send representatives here to answer the charges. Affirmative votes were cast by the United States, Britain, Russia, France, Ecuador, India, Yugoslavia, and Norway. Nations allied with China and Cuba opposed the resolution and Egypt abstained.

Since the question was one of procedure, Nationalist China's vote did not constitute a veto. The council rejected a Soviet proposal that would have allowed the Chinese Reds to participate in discussions of all angles of the Korean case.

MacArthur's spokesman said the Chinese 184th Division was in retreat from the big Changjin power dam front in north-central Korea where U. S. marines had been measuring advances in hard.

Small gains were reported by the U. S. Seventh division which was within 24 miles of the Manchurian border in northeast Korea.

The regiment had reached the Manchurian border north of Onjong but was cut off in the fire. Red counteroffensive and virtually wiped out.

Diplomats Ho Spotlight As Lull Hits War

Seoul, Nov. 9.—(AP)—A puzzling lull marked the Korean war today. The diplomatic front had taken the spotlight. Communist China was asked by the United Nations security council to answer charges of throwing tens of thousands of Red troops into the twilight stages of the campaign.

The charges, by U. N. commander General MacArthur, were followed up today by a chapter-and-verse appraisal by his Tokyo spokesman.

60,000 Chinese Red troops in Far North Korea and as many more available immediately in Manchuria.

Hence, the lull won't due to Red inability to keep up the pressure that last week forced hasty U. N. withdrawals in north-west Korea. The Chinese, themselves having pulled back this week, seemed to be awaiting further orders.

Allied ground forces moved cautiously ahead for short distances, continuing "consolidations" started gradually four days ago. Up until late today the only noteworthy developments was a strike by carrier-based dive-bombers on two railroad bridges across the Yalu river boundary between Manchuria and northwest Korea.

The U. S. navy said its sky raiders whammed the bridges—1,000 and 2,000 pound bombs. Sinui, a city of about 100,000 was reported 90 per cent destroyed in Wednesday's heavy B-29 raid.

Dive bombers from the carrier Philippine sea ran into heavy anti-aircraft fire as they pounded the twin spans.

U. S. Navy Panther jet fighters, flying cover for the bombers, ward off four Russian-made MIG-15 jet fighters and shot down one in history's second death fight between jets. The first was Wednesday, when U. S. F-80 shooting stars downed one MIG-15 and damaged another.

On the ground, evidence was multiplying that Chinese troops were the only barrier to the Yalu river boundary between Manchuria and northwest Korea.

Three South Korean army officers who walked 150 miles through Red lines said North Korean troops had vanished; that only Chinese seemed to be fighting north of the Chongchon river. The three were stragglers from the Seventh regiment of the Republic of Korea (ROK) Sixth division.

The regiment had reached the Manchurian border north of Onjong but was cut off in the fire. Red counteroffensive and virtually wiped out.

Europe Interprets Election as a Truman Setback

Continued from Page One

London, Nov. 9 — UP) — Western Europe today interpreted the results of the American election as a serious setback to President Truman and a blow to his foreign aid programs.

Always concerned about the uncertainties of American politics, Western Europeans immediately started worrying that the close division in the new congress might hamstring American foreign policy.

And Europe is in a position to react to such a photo finish election. Almost every government in Western Europe is plagued by a paper rather than elections.

Immediate worries were about the Marshall aid and military aid program. The Republicans, especially Sen. Robert A. Taft, are associated here with smaller appropriations for foreign aid.

But British officials especially wondered what will now happen on American policy in the Far East. Europeans generally have feared at times that American policy might be too

bellicose. And they are aware that Republicans generally have wanted a tougher policy with respect to the Chinese Communists.

On strictly European problems there is also concern. For example European officials generally associate a tougher attitude toward rearmament with the Republicans — tougher in the sense of the Republicans demanding more and faster action by the Europeans themselves.

Europeans have also noted

the defeat of many Democrats favorable to Europe and the re-election of Republicans usually associated here with the old American policy of isolation.

Emerges Considerably Stronger

Washington, Nov. 6.—The Democratic position in the 1936 election is considerably stronger than it was at the close of the 1932 presidential campaign.

Democratic victories in Ohio, New York, Pennsylvania, Illinois, and California increased the stature of the party, which is likely to carry the 1936 national ticket to victory.

**\$40,000 Fire
at Monticello
Timber Company**

Monticello, Nov. 8 — (AP) — An early morning fire of undetermined origin here destroyed property valued at \$40,000. The loss was suffered by the pallet division of the Davis Timber company. The fire leveled buildings that housed the pallet plant, destroyed one box car owned by the Ash-loy, Drew and Northern railroad, and seriously damaged another. Clair Davis and Charles Johnson, co-owners of the timber com-

**Freezing Weather
Moving in on
Arkansas**

Little Rock, Nov. 8 — (AP) — The U. S. weather bureau here said freezing temperatures will move into the north Arkansas tonight. Thermometers elsewhere in the state also are expected to drop to lower levels. Considerable cloudiness with showers were forecast for late today and tonight.
